The California Montessori Project recognizes that the role of the parent/guardian is paramount in developing civic values and ethical behavior in their children. Montessori curriculum is developed to encourage and support students in the further development of the civic values and ethical behaviors that support them to become responsible and caring citizens, family members, and workers within society. Character education is interwoven throughout the educational program and fosters qualities such as: honesty, respect for self, others and property, morality (understanding what is right, legal and ethical), responsibility, human dignity, empathy, justice, civility, courage, and concern for the common good. CMP encourages all students to participate in community service projects to learn the importance of giving back to their community.

The California Montessori Project believes in the dignity of all and that everyone, including students, families and staff, should be treated with dignity and respect. There is a great deal of diversity in the families we serve, and we strive to ensure that everyone feels welcome within our schools. Differences are celebrated! As a part of Cosmic Education (a study of each cosmic unit in relation to the whole), Maria Montessori was an advocate of Peace Education: the idea that the study and understanding of different cultures and societies would lead to acceptance and peace between nations. The breadth of the Montessori curriculum is designed to provide students with this exposure to a variety of cultures, societies, and beliefs, and to support students to be good citizens, as well as progressive and compassionate thinkers and high-level communicators.

In accordance with this aim, CMP will not tolerate behavior by students, families, staff or visitors which is insulting, degrading or stereotyping of any race, religion, gender, disability, physical characteristics, ethnic group, sexual preference, age, or nationality.

The Montessori philosophy and educational model emphasizes respect for all individuals which is a key component in building a strong school community. Adults serve as models in the way they address the children. Lessons of “Grace and Courtesy” begin at the earliest grades, and students have the opportunity to learn peaceful ways to work through their conflicts. When issues and misbehaviors do occur, a positive discipline approach, based on respectful, relevant and related consequences, is utilized.

The California Montessori Project staff is trained in positive discipline methods such as Love & Logic and Jane Nelsen’s “Positive Discipline.” The classroom curriculum includes Peace Education, with an emphasis on personal peace and tolerance of others’ differences. Conflict resolution tools, such as the Peace Table, as well as Peer Mediation techniques, assist the children in learning these important life skills.

A team from each CMP campus, comprised of administration, teachers, and parents, has been trained to implement a Positive Discipline Approach through the B.E.S.T. Program (Building Effective Schools Together). Each campus has created a slogan emphasizing Safety, Respect, and Responsibility. Students are presented with lessons, which include scenarios for all areas of the school, discussing the reasons for safety, respect, and responsibility in those locations. Positive reinforcement is stressed, and students are “caught” following the rules and guidelines.
When a student is observed not following a rule, the child is asked if they know the rule and is then redirected to show the appropriate behavior. Only when a child repeatedly misbehaves are they referred to the school office and parents contacted. Data is collected to determine if further training is necessary for all of the students when issues occur often and by numerous students. The emphasis is on training and positive reinforcement for the desired behavior, as opposed to a punitive approach. If unacceptable school behavior is observed, the student will be subject to CMP’s Student Discipline Policy. CMP creates a peaceful community for our students and family through a layered approach. Here is a quick list of how we ensure a peaceful school environment for our students-

- **Building Effective Schools Together (BEST)** Program incorporating classroom lessons and school wide assemblies that focus on Be Safe, Be Respectful, Be Responsible.
- Montessori Peace Education
- Assemblies from contracted agencies on bully prevention
- Peer mediation
- Low student to teacher ratio in the classroom and playground
- Multi Age classrooms which encourages peer mentoring
- Classroom morning meetings with opportunities for conflict resolution
- Jonathan Wolff’s** Character Traits Program**
- *A Touch of Understanding* (ATOU Youth Force) - Friends offering respect and creating empowerment program.
- Computer based cyber-bully prevention lessons
- School Communication (voice dialer, web site, regular school/classroom newsletters)
- Twice annual Parent/Teacher Conferences
- Parent Education Workshops
- Parent Volunteer program
- Administration is available via phone, email, or appointment to discuss any safety concerns

Hazing, bullying, and harassment are degrading activities. To clarify, **hazing** is an activity by a group that is done to a person as a type of initiation into their “group”. A bully is a person who is habitually cruel or overbearing, especially to a smaller or perceived weaker person. Bullying occurs both in person and/or through various forms of communication (Internet, notes, texting, social networking, etc.). **Sexual harassment** is when one student, staff member, or other individual makes sexually charged remarks at, about, or around another individual. These remarks may make others uncomfortable and are not acceptable. Other forms of harassment include, but are not limited to: name calling, throwing items at another person, taking someone else’s possessions (i.e. backpacks, shoes, binder) and “hiding” or removing them from view, starting or facilitating rumors about individuals, physical intimidation, and making slurs or remarks intended to be insulting or derogatory. Any student suspected of or caught participating in hazing, bullying, or harassing another student or staff member will be subject to disciplinary action as outlined in the CMP Family Handbook.

If a student is being bullied, hazed or harassed in any manner, it is essential that they report the incident and/or behavior to a staff member to receive support and guidance. Many comments and bullying type behavior can go on undetected by staff. For the issues to be properly addressed, they must be identified. Children are empowered to share their experiences directly through their classroom/community meetings.

As stated previously, the California Montessori Project believes that all students have a right to a safe and healthy school environment. The organization, school, and community have an obligation to promote mutual respect, tolerance, and acceptance.
The California Montessori Project will not tolerate behavior that infringes on the safety of any student. A student shall not intimidate, harass, or bully another student through words or actions. Such behavior includes: direct physical contact, such as hitting or shoving; verbal assaults, such as teasing or name calling; and social isolation or manipulation.

The California Montessori Project expects students and/or staff to immediately report incidents of bullying to the principal or designee. Staff who witness such acts take immediate steps to intervene when safe to do so. Each complaint of bullying will be investigated. This policy applies to students on school grounds, while traveling to and from school or a school sponsored activity, during the lunch period, and during a school sponsored activity.

To ensure bullying does not occur on school campuses, CMP will provide staff development training in peace education/ conflict resolution/ bullying prevention and cultivate acceptance and understanding in all students and staff to build each individual CMP school’s capacity to maintain a safe and healthy learning environment.

Teachers should discuss this policy with their students in an age appropriate manner and should assure them that they need not endure any form of bullying. Students who bully are in violation of this policy and are subject to disciplinary action up to and including expulsion.

In summary:

- Any student who engages in bullying may be subject to disciplinary action up to and including expulsion.
- Students are expected to immediately report incidents of bullying to the principal, or designee.
- Students can rely on staff to investigate each complaint of bullying in a thorough and confidential manner.
- If the complainant student or the parent of the student feels the appropriate resolution of the investigation or complaint has not been reached, the student or the parent of the student should contact the campus principal or the central administration’s Student Services Department. The school system prohibits retaliatory behavior against any complainant or any participant in the complaint process.
