Young minds have room for bilingual learning.

Classes are structured to support daily use of the Spanish language. We use a theme based curriculum that is relevant to your child's everyday life and learn phrases that can be used outside of class. Your child will learn through music, books, games, repetition, and more! Fun and effective. Exposure to a second language, even without acquiring complete fluency, helps with cognitive development, as well as promotes cultural awareness. **Get a jump start on your child's exposure to the #1 foreign language used today!**
